What we're really bringing back into 2026 is our hair care routine. I feel the most beautiful after having freshly washed and styled hair. Hair health and treatment is important but figuring out what works for your hair can be financially and time exhausting. However it's worth the time and effort. Here are some tips and products we've used in 2025 that are going to stick around in 2026.

Dyson Airwrap I.D Multi-Styler & Dryer Straight + Wavy Hair \$649.99

&Honey Moist Silky Treatment
Moisterizes and detagles hair.
\$24.99

Step One
Hair wash day. Washing hair with luke warm closer to the cooler setting. Quality of water can contribute to hair health. Such water can strip the natural oils that we produce to benefit our hair. Choose a treatment that can provide that moisture back.

Kit-sch Satin Sleep Scrunchie set.
For less breakage. A protective necessity for your hair updo.
\$8

Kit-sch Pillow Scrunchie Set
\$18

&Honey Pixie Deep Silky Hair Oil
For all hair types infused with argan, coconut oil, and shea butter.
\$20.55

Step Two
Get your money's worth from your hair tools. An air dryer can be convenient for a salon ready blowout without sitting in the chair for hours. To avoid heat damage and split ends keep the tool's on the lowest setting.

Step Three
Preserve your blowout in a satin large scrunchie to keep volume and curl. Allows to keep hair away from face at night without the breakage. Avoid tight hairbands to avoid tear and breakage.
